To whom it concerns,

I want to tell you why or how I became a sanyassin of Bhagwan Shree Rajneesh, without seeing or hearing him speak. In August 1981 I start reading books about all the different religions of which Bhagwan spoke in Poona (India). I read his book about the different meditations and started to practice them, for a few months almost daily. I started to feel more open, closer to life and very close to Bhagwan. Here my relation with an enlightened Master started. After half a year I decided to take sanyas. I knew, even although I had never seen him, it is die! I trust him and I have got more trust in myself and life. Last year July, I went to Rajneeshpuram in Oregon and met Bhagwan for the first time. I never met anybody who inspired me such intensify without speaking. He inspires me, gives me lot of love and energy, just being here with me, in silence.

Everything has been said and is written down in <sup>his books</sup>  
I hope you will accept Bhagwan Shree  
Rajeev, as a religious teacher, because  
for me he certainly is.

With love, yours faithfully
