

Osswaldo Biffi

To whom it may concern:

I got to know the Rajneesh Meditation Center Akshaya  
Lugano some months ago and since then I have been  
participating to the meditations.

I really must say that these centers inspired by  
Bhagwan Shree Rajneesh are very helpful for people  
looking for self-knowledge and a spiritual path.

As a guest and friend it appears clearly that  
Bhagwan is an authentic guide capable to convey another  
vision of the world and meaning of existence.

A handwritten signature in cursive script, appearing to read 'Osswaldo Biffi', written in dark ink.
