To whom it may concern:

I realize just after 2 years the incredible importance that has been for me the meeting with the thought of the spiritual Master Bhagwan Shree Rajneesh. The path that Bhagwan showed me during these years is the extraordinary discovery of a new spiritual reality which I thought it was lost for ever and anyway it didn't belong to me anymore.

Through His books, His disciple and the Rajneesh Meditation Center here in Lugano, which I regularly attend since one year, I could come across this outstanding Master and His teachings of which I particularly appreciated the acceptance of life as a challenge to meet one's own self with joy and authenticity. His books are precious and His Meditation Centers beautiful places where a real possibility for your personal inner growth is offered. I think it's very important that Bhagwan can stay in the city of Rajneeshpuram in Oregon, from where He can spread His message all over the world, through His presence and through the incredible and meaningful experiment which is made around Him.

I ask you to give <sup>them</sup> the permission to stay in the U.S.A. and continue His religious work.

I thank you for your attention and I remain yours faithfully.

(Margherita Malè)
