

Genova, I.8.83

To whomsoever it may concern.

Dear Sir,

I'm a 25 years old man.

Few months ago, i've met in a disco a group of sannyasins, and I've wondered at them, so happy and blissful among the usually halfhearted people dancing there.

I've then started meditating myself under their guidance, and i did one group in the Lugano Rajneesh Meditation Center, with such a risul that i've decided to go in Oregon for the II Annual World Celebration

There, in the presence of Bhagwan Shree Rajneesh, i've felt the desire to become His disciple, to enjoy and share with such a beautiful people the promise of a new peaceful way of living.

From everything i've seen in Rajneeshpuram, from everything i've read in Bhagwan's books, from the feeling i've got of the people around Him, i'm astonished at how You can doubt He is an enlightened Master, a truly religious Teacher, and may You not give Him the opportunity to stay in USA.

Sincerely,

Ravishwara
