To Whom it May Concern,

About one year ago I found out about Bhagwan Shree Rajneesh from a friend and also His books. I became a disciple of Bhagwan on the 29th of April 1983.

Since discovering Bhagwan I have sensed that my old self was simply just a role that I was playing out as directed by my parents and friends. I was how they told me to be.

I realize that Bhagwan is one person whom I can really trust. He has sent His message to us with words until now.

I trust in His presence totally, and His message as well.

Thank you

Yoko Yamaguchi.
