To Whom it May Concern,

I got to know Bhagwan Shree Rajneesh through His book " Tantra : The Supreme Understanding " in 1980. At that time I was reading many books on philosophy and religion, His books always seem to speak the truth and I felt very attracted to them. After continuing to read His book's I felt that I wanted to see Him, so in the May of 1981 I visited a Rajneesh Meditation Center. But at that time Bhagwan had already gone into silence and body knew where He was. I was disapointed but kept on reading His book's for about another year.

Later I began to feel that the knowledge contained in books was lacking and felt that the only way to obtain knowledge was by experience. So I started to visit a Rajneesh Meditation Center regularly. Before that time my life had been a total mess.

Life for me on the outside and the inside was nothing but suffering. While I was experiencing His Meditation techniques I noticed that various kinds of changes were happening inside of me. I thought that this was my way so November 21st 1982 became my sannyas birthday.

Since I have become a sannyasin many changes have taken place with in me. They are still continuing and at what I call a rapid pace.

The relationship between a Master and His disciple is something that is very much beyond communication by words. It is through a masters being that things begin.

Sincerely

Mr Yoshihisa Kaneko.
